

Prosthetics-Orthotics for Physicians & Therapists

April 13-16, 2026

Prosthetics-Orthotics for Physicians & Therapists is a comprehensive four-day course that covers the essential knowledge and skills needed to collaborate with an inter-professional clinical team providing orthotic & prosthetic care. Engaging lectures and interactive clinical experiences featuring actual patients provides a review of pathologies, patient assessment, prescription development, and biomechanics needed to treat patients that require upper and lower limb prosthetic care in addition to orthotic management of the head/trunk/spine, upper limb, and lower limb. Our distinguished course faculty is comprised of board-certified physiatrists, surgeons, physical/occupational therapists, and prosthetist/orthotists engaged in education, clinical practice, and research.

Venue:

680 N. Lake Shore Dr.
Suite 1100
Chicago, IL 60611

Registration Fee: \$1,000
