SUBJECTS NEEDED
To participate in a strength and muscle function study

We are seeking individuals with unilateral transtibial or transfemoral limb loss ages 18-85 for a research study on hip muscle strength.

Total time commitment: ~3 hours per visit
Your hip strength will be tested using current tests and sensors in our lab on the UIC campus

Participants will be financially compensated per visit

Interested individuals should contact:
Andrew Sawers PhD, CPO
Phone: (312) 996-1427    email: asawers@uic.edu
